Smart IT Partner for Smarter K12 Schools in New
Jersey

Step Into A
World Defined
By Automation
With Workflows
Engineered For
You

Our Vision

We Envision A Future Where Your Functionalities Transition Smoothly To Digitization. To transform institutions' operational frameworks into progressive digital experiences.

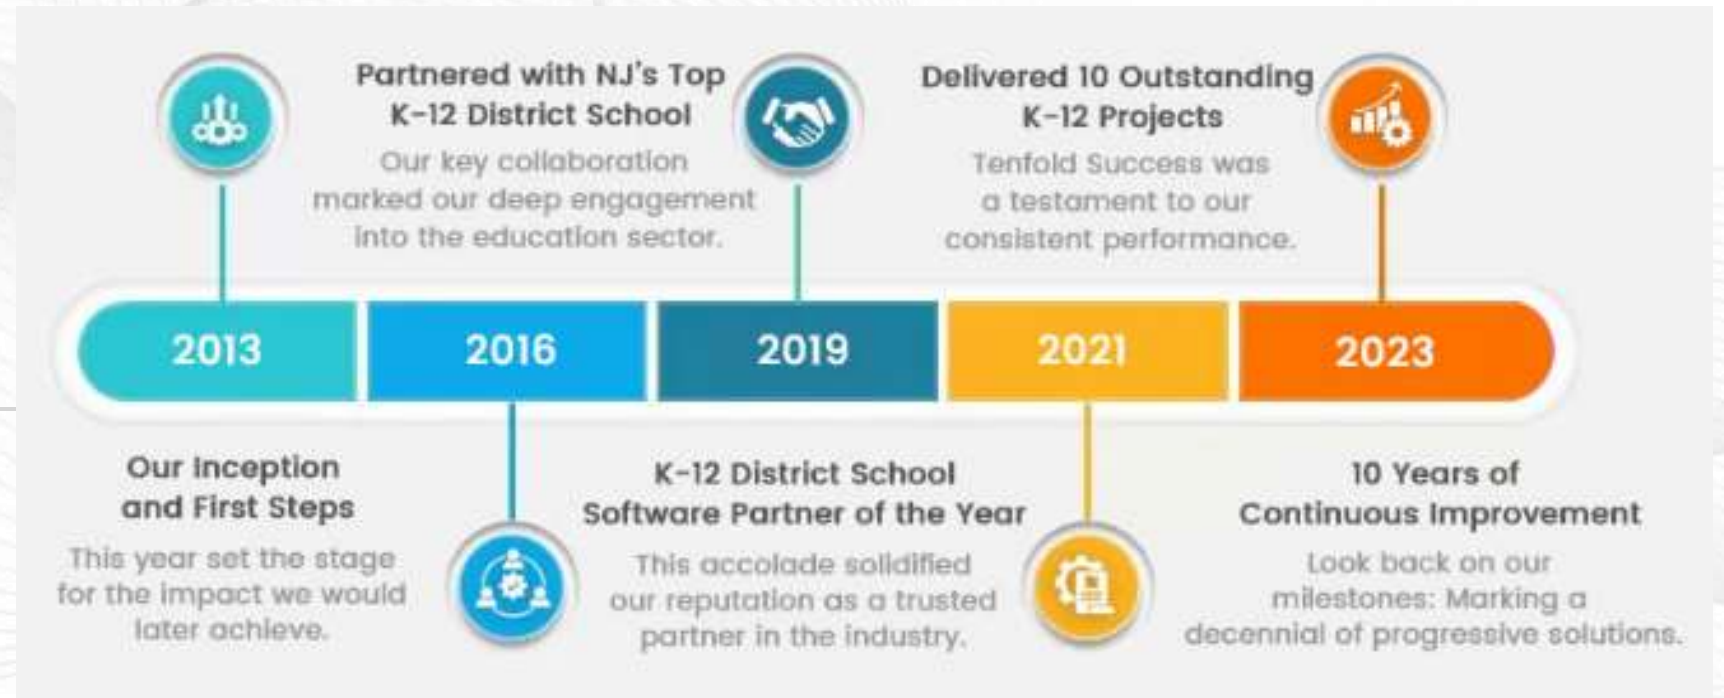

Our Mission

The mission is about empowering institutions with digital tools that enhance their current operations and ensure they remain efficient in the long run.

Our Journey To Success

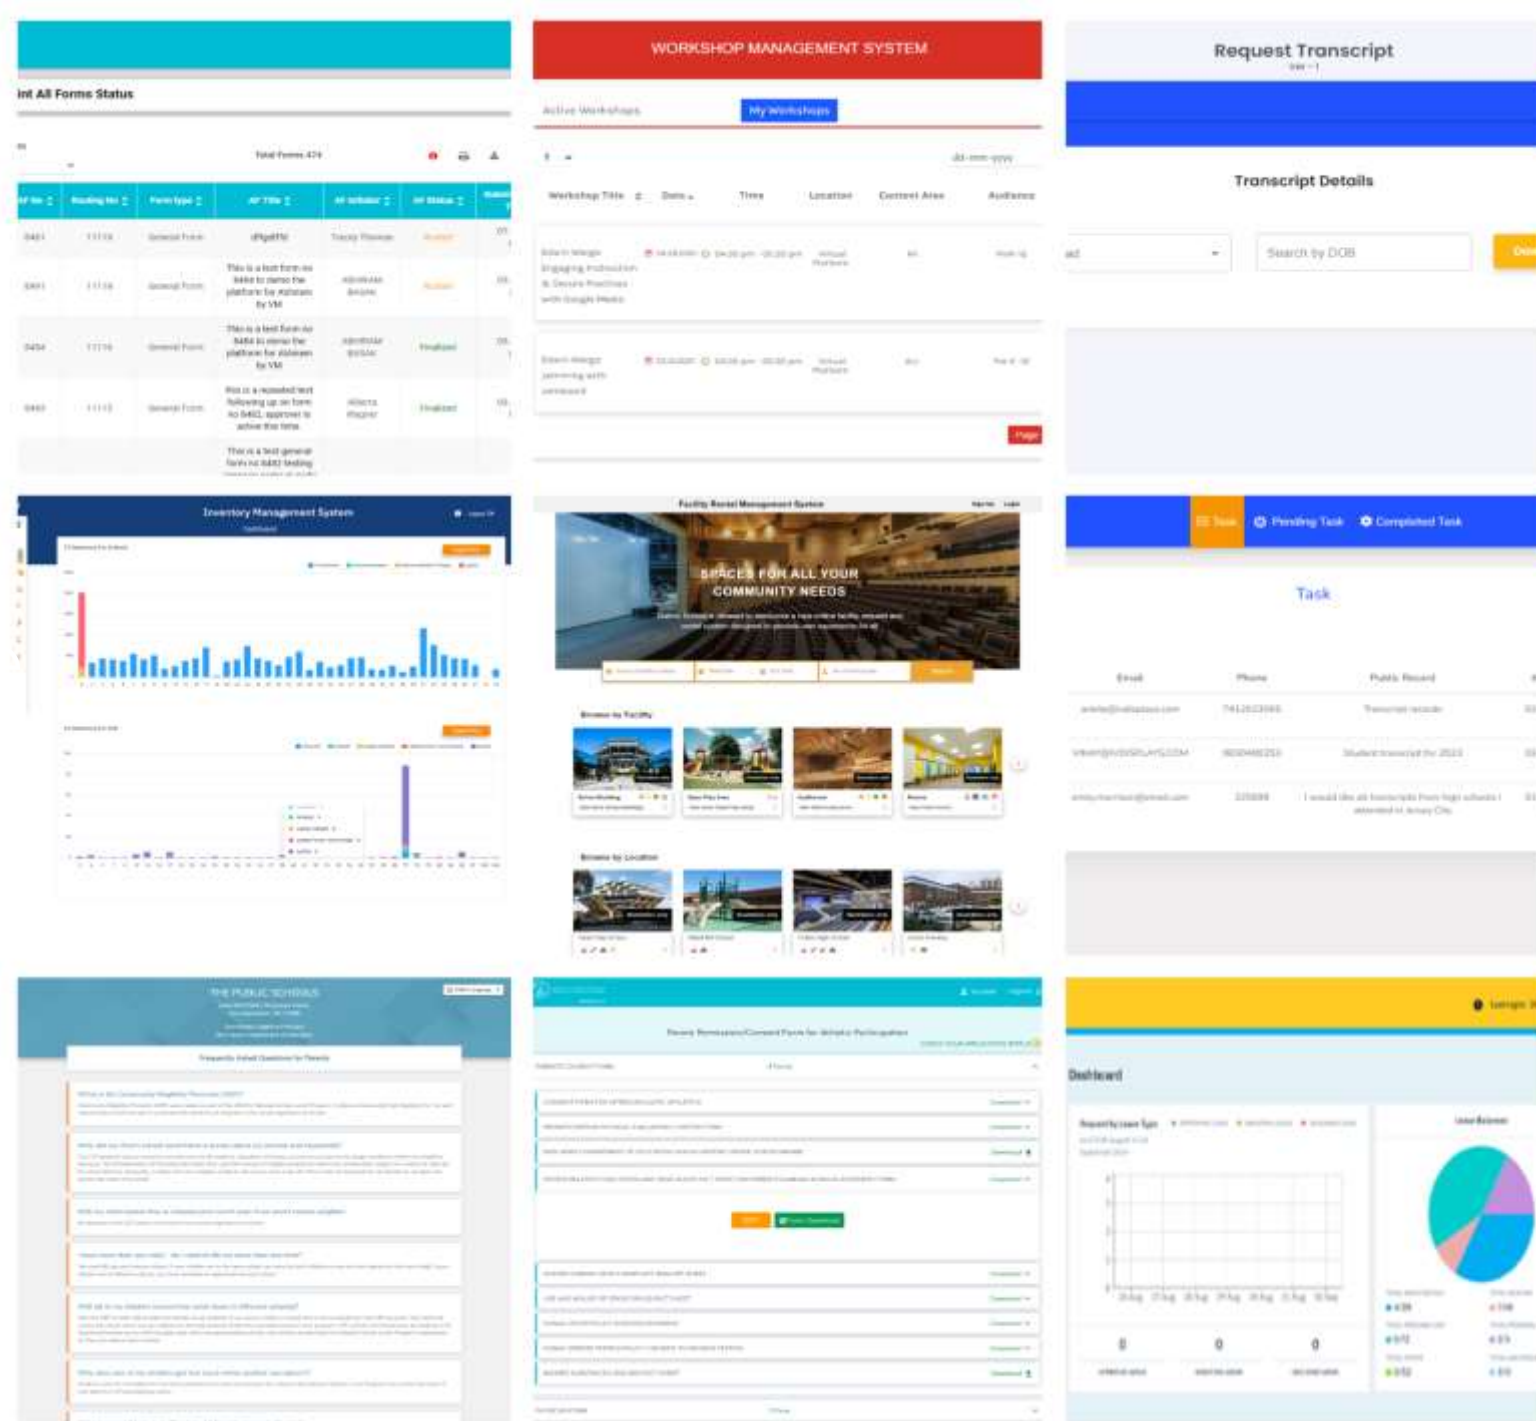

We have continuously evolved over 12 years, driven by a simple yet profound mission to fuel our clients' success in the digital realm.

We Automate,
You Accelerate

Our Collective Milestones

Workflow management & Automaton

Our workflow management transforms your intricate operations digitally for your institution

Gap Analysis

Our gap analysis fine-tunes the strategy for your institution

Efficiency Audit

A structured audit that empowers your Institution

Programming

Bespoke software solutions tailored for your institution

NJSMART & NJDOE Data collection

Make informed decisions for your institution

What We Can Deliver For You

Case Studies – Our Signature Work

E-Form Approval and Routing System

The e-Form Approval and Routing System was designed to replace a paper-based system with a modern, intelligent web-based solution.

The Problem

Manual, error-prone form handling with lengthy approval cycles.

The Solution

Replacing the old tech stack with up-to-date solutions.

The Results

Zero errors and 100% uptime since 2019, with significantly faster approval times.

Appostrophii Presentation

Workshop Management System

Developed a centralized platform for managing training sessions, automating notifications, and simplifying registration.

The Problem

Lack of a structured system for managing training and notifications.

The Solution

comprehensive platform that centralizes training information, automates updates, and streamlines registration.

The Results

Increased employee participation, reduced irrelevant sessions.

Facility Rental Management System

Designed a unified platform for asset management and rental,
automating bookings and tracking.

The Problem

Fragmented asset management and challenges in optimizing rental opportunities.

The Solution

A centralized system for real-time asset tracking and automated rental processes.

The Results

Progression in underutilized assets and streamlined operations with reduced manual errors.

Student Transcript Application

Developed a secure, user-friendly system for archiving and accessing student academic records, ensuring long-term preservation and accessibility.

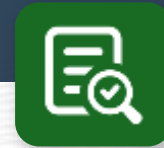

The Problem

Need for secure, accessible long-term archiving of student academic records.

The Solution

A system providing secure, lifetime access to detailed academic transcripts.

The Results

Preserved records with top-tier security and easy access for students throughout their lives.

Application Participation Consent Form

Our solution addressed the complexities of managing athletic participation forms by introducing a unified, digital consent platform that simplifies the submission and tracking of consent forms.

The Problem

K12 school had challenges in managing forms, leading to inconsistent record-keeping.

The Solution

Digital Consent Platform allows parents to easily submit online which enables quick approvals.

The Results

Consent Platform led to faster processing times, improved accuracy in consent tracking

Household Survey Application

We developed a crucial tool to ensure that students who are eligible for free, subsidized, or paid meals are accurately identified.

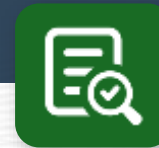

The Problem

Few areas of challenges in accurately identifying students eligible for free, subsidized programs.

The Solution

This application ensures accurate identification of program eligibility.

The Results

Implementation led to the simplification of identifying the eligible students.

Absence Reporting Portal

We integrated a leave management process that not only simplifies but also helps administrators quickly manage staff absences in K-12 schools.

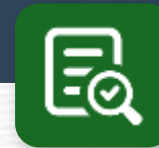

The Problem

Manual processes often led to miscommunication with less management of absences of staff.

The Solution

System allows staff to easily report absences online, ensuring that all information is captured accurately.

The Results

With real-time updates, the system ensured accurate record-keeping effectively.
